

I have been listening to K-Love for the past year. When I found K-Love, I was searching for something on the radio that was interesting and wholesome to listen too. I was tired of nasty rap and just crude DJ's and music. I was very happy to find K-Love. If we loose K-Love to LPFM broadcasters, the community will loose the one place it has for family programming. Our communities are in such horrible shape now, I can only imagine how they will be if we loose the one place we have to hear about God and moral living. K-Love provides a place for all ages to come, listen, and be blessed by love from around the world. Loosing this will hurt the community in ways that can only be imagined. Please don't take my K-Love away.
